PROFESSIONAL SUMMARY

Senior UI/UX Designer and Product Designer with **10+ years of experience** designing enterprise web and mobile applications across **Logistics, Supply Chain, and Enterprise SaaS** products.

Experienced in leading the complete product design lifecycle—from product discovery, user research, information architecture, wireframing, prototyping, and usability testing to high-fidelity design, design systems, developer handoff, and design QA.

Strong expertise in simplifying complex business workflows, designing enterprise dashboards, creating scalable design systems with design tokens, and integrating **AI-assisted features** (LLM-powered document automation) to deliver user-centered solutions in collaboration with Product Managers, developers, and business stakeholders.

A technical background in **HTML/CSS** helps bridge the gap between design and engineering, enabling technically feasible, scalable, and production-ready designs.

KEY ACHIEVEMENTS

- Led end-to-end UX/UI design across **5+ enterprise SaaS products** serving logistics and supply chain businesses.
- Increased product adoption from **23% to 87%** through workflow redesign, usability improvements, and AI-powered document automation.
- Reduced manual data entry by **40%** through simplified business workflows.
- Reduced customer invoice disputes by **46%** by redesigning the invoicing experience.
- Built and maintained a scalable **Design System** with reusable components and design tokens, reducing front-end implementation effort by **30%**.
- Mentored junior designers and established design best practices through regular design reviews and usability sessions.

CORE COMPETENCIES

- **Product Design & Strategy:** Product Design, Product Discovery, Product Strategy, UX Strategy, Product Thinking, Design Thinking, User-Centered Design (UCD), Business Analysis
- **UX Design:** User Research, Stakeholder & User Interviews, Information Architecture, User Journey Mapping, User Flows, Interaction Design, Wireframing, Prototyping, Usability Testing, Heuristic Evaluation, Accessibility (WCAG)
- **UI Design:** Dashboard Design, Enterprise Application Design, Mobile App Design, Responsive Web Design, Visual Design
- **Design Systems:** Design Systems, Design Tokens, Component Libraries, Atomic Design, Design Documentation
- **Collaboration & Process:** Agile/Scrum, Cross-functional Collaboration, Stakeholder Management, Developer Handoff, Design QA, Client Presentation
- **Tools:** Figma, FigJam, Adobe Photoshop, Adobe Illustrator, HTML5, CSS3, Git, Jira, Confluence

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer / Product Designer

Apr 2021 – Present

MatchLog Solutions Pvt. Ltd. · Mumbai (Remote from Surat)

- Led end-to-end UX/UI design across **5+ enterprise SaaS web and mobile products**, collaborating with Product Managers, developers, and business stakeholders from discovery to production.
- Designed **CASA** (Container Assessment & Survey App), a mobile application used by container surveyors and yard operators to inspect containers, capture damage with photos, perform digital assessments, and generate inspection reports in the field.
- Redesigned complex logistics workflows for shipping lines, transporters, depots, and container yards, improving usability and reducing operational effort.
- Conducted user research, stakeholder interviews, workflow analysis, competitive analysis, and usability testing to identify user pain points and validate design decisions.
- Designed an **AI-powered document extraction** workflow (ChatGPT API) that automatically parses Delivery Orders (DOs) and auto-fills shipment data, reducing manual data entry by **40%** and significantly improving first-time user adoption.
- Redesigned the invoicing module with validation-driven interactions and transparent pricing breakdowns, reducing invoice disputes by **46%**.
- Built and maintained a scalable design system using reusable components, design tokens, and standardized UI patterns across multiple enterprise products.
- Collaborated closely with developers during implementation to ensure technical feasibility, consistent UI quality, and faster development cycles.

- Mentored junior designers, conducted design critiques and usability reviews, and promoted user-centered design best practices across teams.

PRODUCTS DESIGNED

- **MatchLog Platform** — Enterprise SaaS for container lifecycle management
- **CASA** — Container Assessment & Survey platform for field inspection and reporting
- **STinder** — Container matching platform connecting supply and demand
- **ERP Admin** — Administration portal for operations and configuration
- **Invoice Management Module** — Billing and dispute-resolution workflows

UI/UX Designer

Shiplyst Systems Pvt. Ltd. · Mumbai

Apr 2017 – Apr 2021

- Led end-to-end UX design for enterprise freight management and logistics platforms.
- Redesigned an email-based freight quotation workflow into a self-service digital booking platform, reducing turnaround time from days to minutes.
- Designed high-density comparison dashboards allowing logistics teams to evaluate **50+ carrier parameters** including freight rates, transit time, and carrier performance.
- Conducted user research, created information architecture, wireframes, and prototypes, and collaborated with engineering teams throughout implementation.
- Developed responsive HTML5/CSS3 interfaces following accessibility best practices.

PRODUCTS DESIGNED

- **Shiplyst Platform** — B2B SaaS platform for freight management

Service Information Developer

Hewlett Packard Enterprise · Bengaluru

Oct 2015 – Apr 2017

- Designed enterprise console interfaces for infrastructure monitoring and diagnostics.
- Standardized reusable interface patterns across enterprise applications.
- Worked closely with engineering teams to deliver responsive and accessible interfaces.

Senior Web Designer

Varshaa Weblabs · Surat

Mar 2014 – Oct 2015

- Designed responsive dashboards, CMS platforms, and property-management applications.
- Collaborated with developers to deliver scalable, multi-tenant web applications.

Android Developer

Infusion Infotech · Surat

Feb 2013 – Feb 2014

- Designed and developed Android applications with responsive interfaces across multiple screen sizes.
- Translated business requirements into intuitive mobile user experiences.

EDUCATION & CERTIFICATIONS

- **Master of Computer Applications (MCA)** – Shree Devi Institute of Technology (VTU), 2010–2013
- **Bachelor of Computer Applications (BCA)** – CASPS (VNSGU), Surat, 2007–2010
- **Certification:** Generative AI Fundamentals – Google
